

## LUGGAGE GUIDELINES

We kindly ask that you NOT bring luggage that is too heavy for you to pull, carry or lift on your own - including on stairs - as there might be times when we do not have assistance readily available. Our best advice is to pack light and plan to wear outfits more than once.

Our transportation service can accommodate one medium-sized, wheeled bag (up to 24 inches) and one carryon-size bag. For your carryon-size bag, we recommend either a backpack or a small bag that can piggyback on your medium-sized wheeled bag.

Please note that we cannot accommodate excess baggage, or luggage that is over-sized or heavy.
